

CABLES & CABLE ENDS

HARLAN OEM

- Brake
- Accelerator
- Choke
- Shifting

LOW COST!

- No Tooling Charges

WHO IS HARLAN OEM?

In today's competitive market for off road mobile equipment, continuous cost reduction efforts are necessary for survival and growth. Material usually accounts for **over 70% of product cost** and, thus, represents a major target for cost savings.

AVAILABLE IN ALL APPLICATION TYPES

- Automotive
- Off-road / ATV
- Construction
- Agriculture
- Marine
- Power Generation
- Motorcycle

TYPES OF CONNECTIONS

- KNOBS CAN BE ATTACHED PER CUSTOMER REQUIREMENTS
- CAN WORK WITH CUSTOMER DESIGN

HARLAN OEM can make a vital contribution to your efforts to reduce cost on existing component designs. Further, we can partner in your DFM (design for manufacturability) efforts. Finally, by offering a broad range of commodities, we can support your supplier base reduction efforts, thus reducing your transaction costs.

REPAIR PARTS AVAILABILITY!

- CUSTOM KITTING
- INDIVIDUAL COMPONENTS

PRIVATE LABELING

- Customer name and part number on product
- Packaged with customer logo – color scheme – name
- Bar coding per customer requirements
- Retail ready
